

FOR IMMEDIATE RELEASE  
FRIDAY, JANUARY 22, 2021

CONTACT: ALLISON NATHAN GETZ  
PUBLIC INFORMATION OFFICER  
CELL: (409) 351-3882

The SETX Vaccine Committee has developed a distribution plan to vaccinate the most vulnerable population while efficiently using the state and local resources. Each county or Public Health Department has submitted the number of vaccinations they can administer each day **by appointment only**. The plan was submitted today.

Jefferson County Judge Jeff Branick, along with other elected officials, will hold a press conference on Monday, January 25<sup>th</sup> at 11:00 am to give the current status of the plan, the daily/weekly dissemination of information through the Southeast Texas Regional Emergency Operations Center and where we currently stand on vaccines.

*Some important reminders:*

DO NOT show up to any vaccination sites until you have received a confirmed appointment time from the Public Health Department. No one will be served without an appointment.

Anyone who previously left their name on the waitlists needs to complete their registration on the following website: [vaccine.beaumonttexas.gov](http://vaccine.beaumonttexas.gov)

You can register at this time, but scheduling will be done *at a later time* once vaccinations are available.

If you are unable to access the website, call centers have been established at 409-550-2536 for further assistance. This covers citizens in Hardin, Jefferson, Jasper, Newton, and Orange counties. Call center assistance will be available Monday through Friday, 8am to 5pm. **This number will be operational starting Monday, January 25<sup>th</sup>.**
