

FOR IMMEDIATE RELEASE
THURSDAY, FEBRUARY 4, 2021

CONTACT: ALLISON NATHAN GETZ
PUBLIC INFORMATION OFFICER
CELL: (409) 351-3882

The Southeast Texas Regional Emergency Operations Center has received confirmation from the Texas Department of State Health Services that we are officially a large HUB provider and have 11,000 doses of vaccine in route to Jefferson County **next week** which will be allotted to our coalition partners based on the percentages outlined in the distribution plan.

Some important reminders:

DO NOT show up to any vaccination sites until you have received a confirmed appointment time from the Public Health Department. No one will be served without an appointment.

Anyone who previously left their name on the waitlists needs to complete their registration on the following website: vaccine.beaumonttexas.gov

You can register at this time, but scheduling will be done *later*, once vaccination shots are available.

If you are unable to access the website, call centers have been established at 409-550-2536 for further assistance. This covers citizens in Hardin, Jefferson, Jasper, Newton, and Orange counties. Call center assistance will be available Monday through Friday, 8am to 5pm.
